1. **[City of Santa Ana Request for Consistency Determination of Santa Ana General Plan Update: Golden City Beyond \(2045\)](#)**

The City of Santa Ana is proposing a comprehensive update to its General Plan to guide the City's development and conservation for the next twenty-five years. The plan area encompasses approximately 17,530 acres (27.4 square miles), including newly annexed areas. The General Plan Update is intended to provide long-term policy direction for the City's physical development, fiscal and environmental sustainability, and overall quality of life.

Recommendation:

1. That the Commission find the proposed Santa Ana General Plan Update: Golden City Beyond (2045) Inconsistent with the AELUP for JWA as per Sections 1.2, 2.1.4, and 3.2.1, and PUC Section 21674 due to:
 - a. The proposed changes in Land Use in the 55/Dyer Focus Area would result in 9,952 total residential units within the flight corridor for John Wayne Airport subjecting future residents to noise and safety issues, and
 - b. The proposed land use designation for a portion of the South Bristol Street Focus Area (between MacArthur Boulevard and Sunflower Avenue) would allow buildings up to 25 stories which would penetrate the FAR Part 77 Obstruction Imaginary Surfaces for JWA.
2. That the Commission find the proposed Santa Ana General Plan Update: Golden City Beyond (2045) Consistent with the *AELUP for Heliports*, with the condition that the City include a statement in the General Plan Update (Safety Element Policy S-4.4) that any proposals for heliports/helipads within the City be submitted through the City to ALUC for a consistency determination.
