

labor established by the County consultant, The Gordian Group, Inc.

The purpose of the JOC program is to expedite services, as defined by the Contractors State License Board (CSLB), for maintenance and repair work involving health, safety and mandated projects. These efforts include major and minor repairs and replacements as requested by County departments. OC Public Works utilizes JOCs to provide services to multiple agencies on an as-needed basis.

The JOC Program functions as an extension of the available workforce to maintain and repair County assets without incurring the full-time burden of employing individual companies and personnel. The JOC contractors are not guaranteed or assured work, but respond to the needs of the County on an On-Call basis. Depending on their current workload, these contractors have limited crews that may or may not be available to respond to the County’s needs. Therefore, it is prudent to have more than one On-Call contractor available should other contractors on the list lack the capacity to respond. Task Orders for the physical work for JOC contracts are generated as a result of various events. The following events are examples that could potentially generate Task Orders for JOC contracts:

- a. Unplanned emergency repair or replacement necessitated by a failure of existing equipment and/or physical failure of a building component.
- b. Planned maintenance and/or repair/replacement of existing structure component or equipment.
- c. Unforeseen events (burst pipes, earthquake, fire, flooding, pandemic, etc.) that necessitate repair/replacement/rehabilitation of a County asset.
- d. Planned or unplanned usage of County JOC contract by one of the County Agencies/Departments to solve operational issues in a County owned asset/building.

On January 21, 2021, the Director of OC Public Works approved bid documents for use with the JOC program for Pavement Maintenance & Repair Services (Services) at John Wayne Airport (JWA) and authorized the advertisement for bids. The bid documents were advertised in several industry publications and on the County online bid system. Contractors were required to submit a pre-qualification questionnaire and pre-qualify to submit a proposal for these Services. A total of four submittals were received. The Bid Summary is included as Attachment C.

OC Public Works is recommending Board approval of Contract MA-080-21011281 (Contract) with Sully-Miller Contracting Company (Contractor) for Services effective May 25, 2021, through May 24, 2022. The cumulative maximum for the Contract will not exceed a total of \$1 million over the respective one-year term.

The Contractor's license number was verified as current and active through the CSLB database on March 2, 2021. Copies of the verification are on file.

OC Public Works has conducted due diligence on the Contractor. Reference checks were satisfactory and completed with the City of Industry, Fontana, California and the City of Cudahy regarding similar Services.

The Contract is coming to the Board less than 30 days before its commencement due to additional negotiation time required with the Contractor.

This Contract, due to the nature of the Services, could require the addition of subcontractors. In order to add subcontractor(s) to the Contract, the Contractor must seek express consent from OC Public Works. Should the

addition of a subcontractor affect the scope of work and/or Contract amount, OC Public Works will bring the item back to the Board for approval. See Attachment B for the Contract Summary Form.

Compliance with CEQA: This action is not a project within the meaning of CEQA Guidelines Section 15378 and is therefore not subject to CEQA, since it does not have the potential for resulting in either a direct physical change in the environment or a reasonably foreseeable indirect physical change in the environment. The approval of this agenda item does not commit the County to a definite course of action in regard to a project since it involves contracts for Services associated with potential future County repair, rehabilitation and maintenance projects. This proposed activity is therefore not subject to CEQA. Any individual, specific work authorized pursuant to this Contract will be reviewed for compliance with CEQA.

FINANCIAL IMPACT:

Appropriations for the Services are included in the FY 2020-21 Budget for JWA, Operating Fund 280, and will be included in the budgeting process for the next year.

In an effort to consolidate the administration of various internal JOC programs under OC Public Works for Countywide utilization, the amount not to exceed has been set to maximize utilization of the JOCs by OC Public Works and other County departments. Individual job orders will be encumbered as needed by various departments, provided sufficient appropriations are available in the current budget and for future fiscal years.

The proposed Contract includes provisions stating the Contract is subject to, and contingent upon, applicable budgetary appropriations being approved by the Board for each fiscal year during the term of the Contract. If such appropriations are not approved, the Contract may be immediately terminated without penalty to the County.

The IIPP shall meet the minimum requirement of California Code of Regulations, Title 8, Section 1509 or 3203. CONTRACTOR shall submit other safety programs that pertain to the type of job that will be performed on site.

22. Access and Security Requirements:

- A. Contractor is responsible for fines imposed by any regulatory agency as a result of Contractor's failure to comply with applicable rules and regulations regarding airport security. If Contractor's employees or its subcontractors' employees are discovered in a secure area without a badge, then a fine of up to \$10,000 may be imposed. Contractor may be required to obtain airport security clearance to perform work under this Contract. The Contractor, Contractor's employees, and Contractor's subcontractors must complete a Security Identification Display Area (SIDA) class to obtain an ID badge with Airport Operations Area (AOA) driving permit, if required, for access to secure areas and to drive on the airfield.

At no time shall construction vehicles or equipment be driven or used without badged personnel in the immediate vicinity (i.e., within 100 feet). Personnel who drive vehicles on the airfield will be issued an Airport driving permit. All Contractor vehicles must be marked with a company logo. The Airport Security department will inspect the vehicles, and vehicle hangtags will be issued.

- B. Badge Acquisition: Prior to issuance of a security badge(s), designated Contractor personnel who will be working onsite at the Project site and engaged in the performance of work must pass JWA's screening requirements, which include a Federal Bureau of Investigation (FBI) Criminal History Records Check (approximately \$29 per person) and a Security Threat Assessment (approximately \$11 per person). Upon successful completion of the background checks, Contractor's designated personnel will be required to attend a 3-hour SIDA class and pass a written test. Those personnel who may be permitted by JWA to drive on the Airport Operations Area (AOA) perimeter road must also complete a Driver's Training class and written test. JWA identification badges are not issued until designated Contractor personnel have: (1) complete appropriate application forms and submitted proof of identity and employment eligibility, (2) passed both background checks, (3) completed and passed appropriate classroom training, and (4) paid an identification badge fee of \$10.00 per person. Contractor should anticipate a minimum of ten (10) business days to complete the security badge process if all requirements listed above are fulfilled by individual badge applicants in a timely manner. Contractor shall be responsible for all costs associated with the background checks and abide by all of the security requirements set forth by FAA, TSA and JWA. Contractor's designated personnel must successfully complete the badge acquisition process unless other arrangements have been coordinated by the JWA Project Manager.
- C. The Federally approved security program for JWA requires that each person issued a JWA security badge is made aware of his/her responsibilities regarding the privilege of access to restricted areas of JWA. All persons within the restricted AOA's of JWA are required to display, on their person, a JWA security badge, unless they are specifically exempted for safety reasons or they are under escort by a properly badged individual. When working in a secure area, each badged person is responsible for challenging any individual who is not properly displaying a JWA-issued or approved and valid ID badge. Any person who is not properly displaying or who cannot produce a valid JWA security badge must immediately be referred to the Sheriff's Department – Airport Police Services Office for proper handling. The JWA security badge is the property of the County of Orange and must be returned upon the termination of employment of any employee of the Contractor and/or the termination or expiration of the Contractor's contract at JWA. The loss of a badge shall be reported within 24 hours to the Sheriff's Department – Airport Police Service by calling 949-252-5000. Individuals who lose their badge shall be required to pay a fee before receiving a replacement badge. The charge for lost badge replacement will be at the current posted rate located in the JWA Administration Office. A report shall be made before a replacement badge will be issued. The JWA badge is non-transferrable.

In the event that a Contractor's badge is not returned to JWA within 24 hours of termination of Contractor personnel employment and/or termination or expiration of Contract, a fine of \$250 per badge will be charged to the Contractor and Contractor may be subject to civil penalties of up to \$10,000. Contractor's final payment may be held by JWA, or a deduction from the Contractor's payment(s) may be made to ensure that funding is available to cover the fine in the event that badges are not returned.

The failure by the Contractor to submit an acceptable Project-Specific Safety & Health Plan or to meet the health and safety requirements of its safety plan, JWA's safety plan, the requirements set forth in this Agreement or any ordinances, regulations, laws, or customary industry or trade practices relating to health and safety, shall be grounds for JWA to reject, in its entirety, any request for payment by the Contractor, withhold payments due to the Contractor, and order that all work be stopped. Should JWA stop work, CONTRACTOR may only resume work upon Contractor's submission and JWA's approval of a revised Project-Specific Safety & Health Plan. Contractor is not entitled to damages as a result of such stoppage of work. Failure of the Contractor to maintain a healthy and safe environment in accordance with the requirements of this Agreement shall constitute a material breach of this Agreement. 24. **Operational Requirements:** The Contractor shall not interrupt any operation of JWA in the performance of the work without prior written approval by JWA. County may stop work if Contractor interrupts the operation of any County or Federal facility, equipment, or system. Should JWA stop work, such work may only resume upon Contractor submission, and upon JWA approval, of a revised Quality Control Plan. Contractor is not entitled to damages as a result of such stoppage of work. Failure of the Contractor to meet the quality requirements of this Agreement may constitute a material breach of this Agreement. Delays to the Schedule that may be incurred by the Contractor resulting from an unacceptable Quality Control Plan, revised Quality Control Plan, or work stoppage for reasons related to its Quality Control Plan(s) are inexcusable and non-compensable.
26. **Storm Water Pollution Prevention Plan (SWPPP):** Contractor shall submit a SWPPP within 21 calendar days following the Contract Award Date when one is required according to JWA. JWA shall have up to 14 calendar days to approve or disapprove such plan. Should JWA stop work, such work may only resume upon Contractor submission, and upon JWA approval, of a revised SWPPP. Contractor is not entitled to damages as a result of such stoppage of work. Failure of the CONTRACTOR to comply with the JWA-approved SWPPP, or any revised SWPPP, or otherwise comply with SWPPP requirements of this Agreement may constitute a material breach of this Agreement. JWA shall have up to 14 calendar days to approve or disapprove such plan. The failure by the Contractor to submit an acceptable CEP as provided hereinabove, or meet the CEP requirements of this Agreement, shall be grounds for JWA to reject, in its entirety, any request for payment by the Contractor, withhold payments due to the Contractor, and order that all work be stopped. Should JWA stop work, such work may only resume upon Contractor submission, and JWA's approval, of a revised CEP. Contractor is not entitled to damages as a result of such stoppage of work. Delays to the Schedule that may be incurred by the Contractor resulting from an unacceptable CEP, revised CEP, or work stoppage for reasons related to its CEP are inexcusable and non-compensable.
28. **Responsibility For Damages Or Injury:** The County its elected and appointed officials, officers, employees, agents and those special districts and agencies which County's Board of Supervisors acts as the governing Board ("County Indemnitees") shall not be answerable or accountable in any manner: for any loss or damage that may happen to the Project or any part thereof; for any loss or damage to any of the materials or other things used or employed in performing the Project; for injury to or death of any person either workers or the public; or for damage to property from any cause which might have been prevented by the Contractor, or his workers, or anyone employed by him.

The Contractor shall be responsible for any liability imposed by law and for injuries to or death of any person or damage to property resulting from defects or obstructions or from any cause whatsoever during the progress of the Project or at any time before its completion and final acceptance.

The Contractor shall indemnify, defend with counsel approved in writing by County and save harmless the County Indemnitees from all claims, suits or actions of every name, kind and description, brought for, or on account of, injuries to or death of any person or damage to property resulting from the construction of the Project or by or in consequence of any negligence in guarding the Project; use of improper materials in construction of the Project; or by or on account of any act or omission by the Contractor or his agents during the progress of the work or at any time before the completion and final acceptance of the Project.

In addition to any remedy authorized by law, so much of the money due the Contractor under and by virtue of the Contract as shall be considered necessary by the County may be retained by it until disposition has been made of such suits or claims for damages as aforesaid.

If judgment is entered against Contractor and County by a court of competent jurisdiction because of the concurrent active negligence of County and County Indemnitees, Contractor and County agree that liability will be apportioned as determined by the court. Neither Party shall request a jury apportionment.

Notwithstanding anything stated above, nothing contained herein shall relieve Contractor of any insurance requirements of obligations created elsewhere in this Contract.

29. **Other Contracts:** The Board of Supervisors may undertake or award other contracts for additional work, and the Contractor shall fully cooperate with such other contractors and County employees and carefully fit his own work to such additional work as may be directed by OC Public Works. 30. **Breach of Contract:** The failure of the Contractor to comply with any of the provisions, covenants or conditions of this Contract, shall constitute a material breach of this Contract. In such event the County may, and in addition to any other remedies available at law, in equity, or otherwise specified in this Contract:
- i. Afford the Contractor written notice of the breach and ten calendar days or such shorter time that may be specified in this Contract within which to cure the breach;

The Contractor shall comply with the provisions of Sections 1775 and 1813 of the Labor Code.

Travel and subsistence payments to each workman needed to execute the work shall be made as such travel and subsistence payments are defined in the applicable collective bargaining agreements filed in accordance with Section 1773.8 of the Labor Code.

The County will not recognize any claim for additional compensation because of the payment by the Contractor of any wage rate in excess of the prevailing wage rate set forth in the Contract. The possibility of wage increases is one of the elements to be considered by the Contractor in determining his bid, and will not under any circumstances be considered as the basis of a claim against the County on the Contract.

Pursuant to Section 1725.5 of the Labor Code, a contractor shall be registered to be qualified to bid on, be listed in a bid proposal, subject to the requirements of Section 4104 of the Public Contract Code, or engage in the performance of any public work contract that is subject to the requirements of this chapter. Contractor shall post a copy of these wage rates at the job site for each craft, classification, or type of worker needed in the performance of this Contract, as well as any additional job site notices required by Labor Code Section 1771.4(b). Copies of these rates are on file at the principal office of County's representative, or may be obtained from the State Office, Department of Industrial Relations ("DIR") or from the DIR's website at www.dir.ca.gov. 36. **Registration of Contractors:** Contractor and all subcontractors must comply with the requirements of labor code section 1771.1(a), pertaining to registration of contractors pursuant to section 1725.5. 38. **Craft Labor Time Records:** The Contractor shall keep full, true and accurate records of the names and actual hours worked by the respective workers and laborers employed under this Contract in accordance with California Labor Code and shall allow access to the same any reasonable hour to the County, its agents or representatives and to any person having the authority to inspect the same as contemplated under the provisions of said California Labor Code, or when requested by the County.

This prohibition shall pertain to employment, upgrading, demotion, or transfer; recruitment advertising; layoff or termination; rates of pay and other forms of compensation; selection for training, including apprenticeship; and any other action or inaction pertaining to employment matters.
40. **Assignment Of Antitrust Actions:** In accordance with Public Contract Code, Section 7103.5, by entering into this Contract or into a subcontract to supply goods, services, or materials pursuant to this Contract, the Contractor, or subcontractor, offers and agrees to assign to the County all rights, title, and interest in and to all causes of action it may have under Section 4 of the Clayton Act (15 U.S.C. Figures marked on drawings shall in general be followed in preference to scale measurements. Large-scale drawings shall in general govern small-scale drawings. The Contractor shall compare all drawings and verify the figures before laying out the work and will be responsible for any errors, which might have been avoided thereby. Anything mentioned in the specifications and not shown on the drawings, or shown on the drawings and not mentioned in the specifications, shall be of like effect as if shown or mentioned in both.
- B. Any adjustment by the Contractor without written determination shall be at Contractor's own risk and expense.

The Contractor shall maintain on the site a complete "as-built" record set of drawings. In addition, the Contractor shall keep on the site a copy of each manufacturer's current printed recommendations. Contractor shall also submit a copy to the County.

- F. Technical Specifications: The Technical Specifications furnished on the CD are intended to establish the standards for quality, performance and technical requirements for all labor, workmanship, material, methods and equipment necessary to complete the work. When specifications and drawings are provided or referenced by the County, these are to be considered part of the Scope of Work, and to be specifically documented in the Detailed Scope of Work. For convenience, the County supplied specifications, if any, and the Technical Specifications furnished on the CD.

47. Division of the Specifications:

- A. For convenience, these specifications are arranged in several divisions and sections, but such separations shall not be considered as the limits of the work required for any subcontract or trade; the terms and conditions of such limitations are wholly between the Contractor and his subcontractors, and the County will not be responsible for any division of work by subcontractors. The Contractor will be solely responsible for all subcontract arrangements of work regardless of the location of provisions in the specifications.
- B. Schedules of Work included in the sections, where listed, are given for convenience only, and shall not be considered as a comprehensive list of items or work necessary to complete the work of any section.
- C. Where devices or items or parts thereof are referred to in the singular, it is intended that such reference shall apply to as many such devices, items, or parts as are required to properly complete the work.
- D. Each section of the specifications is covered by applicable requirements of the Contract documents and other related sections as if therein written.

48. Site Conditions:

- A. Existing Site Conditions: Information with respect to the site of the work given in drawings or specifications has been obtained by County's representatives and is believed to be reasonably correct, but the County does not warrant either the completeness or accuracy of such information, and it is the responsibility of the Contractor to verify all such information.
- B. Changed Conditions: The Contractor shall promptly, and before such conditions are disturbed, notify the County Project Manager in writing of:
 - i. Subsurface or latent physical conditions at the site differing materially from those indicated in this Contract, or

- ii. Unknown physical conditions at the site, of an unusual nature, differing materially from those ordinarily encountered and generally recognized as inherent in work of the character provided for in this Contract.
- iii. Material that the Contractor believes may be material that is hazardous waste, as defined in Section 25117 of the Health and Safety Code that is required to be removed to a Class I, Class II or Class III disposal site in accordance with provisions of existing law.
- iv. County Project Manager will promptly investigate the conditions, and if, as a result, finds that such conditions do so materially differ and cause an increase or decrease in the Contractor's cost of, or the time required or performance of this Contract, an equitable adjustment in accordance with section 17 above, and Articles 32 and 46, shall be made and the Contract modified in writing accordingly. Any claim of the Contractor for adjustment hereunder shall not be allowed unless he has given notice as above required.

In the event that a dispute arises between the County and the Contractor whether the conditions materially differ, or involve hazardous waste, or cause a decrease or increase in the Contractor's cost of, or, time required for, performance of any part of the work, the Contractor shall not be excused from any scheduled completion date provided for by the Contract, but shall proceed with all work to be performed under the Contract. The Contractor shall retain any and all rights provided either by Contract or by law which pertain to the resolution of disputes and protests between the contracting parties.

- C. Public Utility Facilities on Project Site: Pursuant to Government Code, Section 4215, the Contractor shall be compensated for the costs of locating and repairing damage not due to failure of Contractor to exercise reasonable care, and removing, relocating existing or protecting existing main or trunkline utility facilities located on the Contract construction site and not identified in the plans or specifications with reasonable accuracy. This will be accomplished by the issuance of a separate Job Order. The payment of this is full compensation for all Contractor's cost.
- D. Space at Site: The Contractor shall be allowed reasonable space at the site of the work as available and access thereto and shall confine his operations to the space assigned. The work shall be done without interference with the ordinary use of streets, berthing places, fairways, and passages. The Contractor shall cooperate with other Contractors of the County and shall not commit or permit any act which will interfere with the performance of work by any other Contractor or employees of the County whether at the site or not.
- E. Facility Security: Contractor shall keep all doors locked while working in any buildings on the site. Keys shall not be left in the doors. Contractor shall not admit any person into the building that is not a direct employee of the Contractor and not actively engaged in performance of the work. Contractor shall restrict access to the areas of the facility not specifically included in this Contract for construction services. The Contractor shall check all windows and doors for proper closure and locking, extinguish all lights except master security lighting, and then reactivate the security system (if applicable) prior to leaving the facility.

**Attachment A

- F. Security System: The site and the work area may be protected by limited access security systems. An initial access code number will be issued to the Contractor by the County. Thereafter, all costs for changing the access code due to changes in personnel or required substitution of contracts shall be paid by the Contractor and may be deducted from payments due or to become due to the Contractor. Furthermore, any alarms originating from the Contractor's operations shall also be paid by the Contractor and may be deducted from payments due or to become due to the Contractor.
- G. Secured Facilities: For specific Job Orders, the work may be conducted at secured County facilities. As a requirement to work in these Facilities, all Contractor employees, including all subcontractor employees, must obtain a security clearance. If security clearances are required, this will be discussed at the Joint Scope meeting. At the Joint Scope meeting, all requirements and forms will be provided by the County Project Manager. Also, the requirement to obtain the clearances will be incorporated in the Job Order Schedule. All costs to obtain clearances are the responsibility of the Contractor.
- H. Employee Acceptability: If required by a specific Job Order, prior to commencing any construction at the site, Contractor shall obtain security clearances of all persons and/or entities it intends to employ. During the life of a Job Order, Contractor shall remove and replace any employee working on this project when requested to do so by the County.
49. **Beneficial Occupancy:**
- A. The County may, at any time, and from time to time, during the performance of the work, enter the structure for the purpose of installing any necessary work by County labor or other contracts, and for any other purpose in connection with the installation of facilities. In doing so, the County shall endeavor not to interfere with the Contractor and the Contractor shall not interfere with other work being done by or on behalf of the County.
- B. If, prior to completion and Final Acceptance of all the work under a specific Job Order, the County takes possession of any structure (whether completed or otherwise) comprising a portion of that Project with the intent of retaining possession thereof (as distinguished from temporary possession contemplating the return to the Contractor), then, while the County is in possession of the same, the Contractor, notwithstanding its normal responsibilities, shall be relieved of liability for loss or damage to structure other than that resulting from the Contractor's fault or negligence. Such taking of possession by the County shall not relieve the Contractor from any provisions of this Contract respecting such structure, other than to the extent specified in the preceding sentence, nor constitute a final acceptance of such structure.
50. **Contract Disputes:**
- A. In the event of a dispute between the Parties as to performance of the work, the interpretation of this Contract, or payment or nonpayment for work performed, the parties shall attempt to resolve the dispute. Pending resolution of the dispute, the Contractor shall continue the work diligently to completion as directed by OC Public Works. If the dispute is not resolved, the Contractor agrees he will neither rescind this Contract nor stop the progress of the work.
- B. For this section a "claim" means a separate demand by a contractor sent by registered mail or certified mail with return receipt requested, for one or more of the following: a time extension, including, without limitation, for relief from damages or penalties for

delay assessed by a public entity under a contract for a public works project; payment by the public entity of money or damages arising from work done by, or on behalf of, the contractor pursuant to the contract for a public works project and payment for which is not otherwise expressly provided or to which the claimant is not otherwise entitled; payment of an amount that is disputed by the public entity.

Pursuant to Public Contract Code Section 9204:

(d)(1)(A) Upon receipt of a claim pursuant to this section, the public entity to which the claim applies shall conduct a reasonable review of the claim and, within a period not to exceed 45 days, shall provide the claimant a written statement identifying what portion of the claim is disputed and what portion is undisputed. Upon receipt of a claim, a public entity and a contractor may, by mutual agreement, extend the time period provided in this subdivision.

(B) The claimant shall furnish reasonable documentation to support the claim.

(C) If the public entity needs approval from its governing body to provide the claimant a written statement identifying the disputed portion and the undisputed portion of the claim, and the governing body does not meet within the 45 days or within the mutually agreed to extension of time following receipt of a claim sent by registered mail or certified mail, return receipt requested, the public entity shall have up to three days following the next duly publicly noticed meeting of the governing body after the 45-day period, or extension, expires to provide the claimant a written statement identifying the disputed portion and the undisputed portion.

(D) Any payment due on an undisputed portion of the claim shall be processed and made within 60 days after the public entity issues its written statement. If the public entity fails to issue a written statement, paragraph (3) shall apply.

(2)(A) If the claimant disputes the public entity's written response, or if the public entity fails to respond to a claim issued pursuant to this section within the time prescribed, the claimant may demand in writing an informal conference to meet and confer for settlement of the issues in dispute. Upon receipt of a demand in writing sent by registered mail or certified mail, return receipt requested, the public entity shall schedule a meet and confer conference within 30 days for settlement of the dispute.

(B) Within 10 business days following the conclusion of the meet and confer conference, if the claim or any portion of the claim remains in dispute, the public entity shall provide the claimant a written statement identifying the portion of the claim that remains in dispute and the portion that is undisputed. Any payment due on an undisputed portion of the claim shall be processed and made within 60 days after the public entity issues its written statement. Any disputed portion of the claim, as identified by the contractor in writing, shall be submitted to nonbinding mediation, with the public entity and the claimant sharing the associated costs equally. The public entity and claimant shall mutually agree to a mediator within 10 business days after the disputed portion of the claim has been identified in writing. If the parties cannot agree upon a mediator, each party shall select a mediator and those mediators shall select a qualified neutral third party to mediate with regard to the disputed portion of the claim. Each party shall bear the fees and costs charged by its respective mediator in connection with the selection of the neutral mediator. If mediation is unsuccessful, the parts of the claim remaining in dispute shall be subject to applicable procedures outside this section.

**Attachment A
MA-080-21011281**

(C) For purposes of this section, mediation includes any nonbinding process, including, but not limited to, neutral evaluation or a dispute review board, in which an independent third party or board assists the parties in dispute resolution through negotiation or by issuance of an evaluation. Any mediation utilized shall conform to the timeframes in this section.

(D) Unless otherwise agreed to by the public entity and the contractor in writing, the mediation conducted pursuant to this section shall excuse any further obligation under Section 20104.4 to mediate after litigation has been commenced.

(E) This section does not preclude a public entity from requiring arbitration of disputes under private arbitration or the Public Works Contract Arbitration Program, if mediation under this section does not resolve the parties' dispute.

(3) Failure by the public entity to respond to a claim from a contractor within the time periods described in this subdivision or to otherwise meet the time requirements of this section shall result in the claim being deemed rejected in its entirety. A claim that is denied by reason of the public entity's failure to have responded to a claim, or its failure to otherwise meet the time requirements of this section, shall not constitute an adverse finding with regard to the merits of the claim or the responsibility or qualifications of the claimant.

(4) Amounts not paid in a timely manner as required by this section shall bear interest at 7 percent per annum.

(5) If a subcontractor or a lower tier subcontractor lacks legal standing to assert a claim against a public entity because privity of contract does not exist, the contractor may present to the public entity a claim on behalf of a subcontractor or lower tier subcontractor. A subcontractor may request in writing, either on his or her own behalf or on behalf of a lower tier subcontractor, that the contractor present a claim for work which was performed by the subcontractor or by a lower tier subcontractor on behalf of the subcontractor. The subcontractor requesting that the claim be presented to the public entity shall furnish reasonable documentation to support the claim. Within 45 days of receipt of this written request, the contractor shall notify the subcontractor in writing as to whether the contractor presented the claim to the public entity and, if the original contractor did not present the claim, provide the subcontractor with a statement of the reasons for not having done so.

Upon receipt of a claim, the parties may mutually agree to waive, in writing, mediation and proceed directly to the commencement of a civil action or binding arbitration, as applicable.

- C. All construction claims of Three Hundred Seventy-Five Thousand Dollars (\$375,000) or less between the Contractor and the County shall be resolved in accordance with the provisions of Division 2, Part 3, Chapter 1, Article 1.5 of the Public Contract Code of the State of California. Contractor's sole remedy for construction claims of more than Three Hundred Seventy-Five Thousand Dollars (\$375,000) will be to submit such controversy to determination by a court of the State of California in Orange County, California, having competent jurisdiction of the dispute, after the project has been completed and not before.
- D. Notwithstanding the foregoing, with respect to any dispute involving a claim by the Contractor for additional compensation, Contractor shall submit such claim in writing to OC Public Works promptly as the alleged facts giving rise to, or the alleged bases for,

54. **Entire Contract:** This Contract, including Attachments, which are attached hereto and incorporated herein by this reference, when accepted by the Contractor either in writing or by the shipment of any article or other commencement of performance hereunder, contains the entire Contract between the Parties with respect to the matters herein and there are no restrictions, promises, warranties or undertakings other than those set forth herein or referred to herein. No exceptions, alternatives, substitutes or revisions are valid or binding on County unless authorized by County in writing. Electronic acceptance of any additional terms, conditions or supplemental Contracts by any County employee or agent, including but not limited to installers of software, shall not be valid or binding on County unless accepted in writing County's Purchasing Agent or his designee.
55. **Amendments:** No alteration or variation of the terms of this Contract shall be valid unless made in writing and signed by the Parties; no oral understanding or agreement not incorporated herein shall be binding on either of the Parties; and no exceptions, alternatives, substitutes or revisions are valid or binding on County unless authorized by County in writing.
56. **Taxes:** Unless otherwise provided herein or by law, price quoted does not include California state sales or use tax.
57. **Warranty Work/Guarantees:** Contractor warrants that materials and equipment furnished under the Contract Documents will be new, of good quality, and carrying all available manufacturers' and installers' warranties; that construction will be of good and workmanlike quality; and that all of the work shall be performed in strict conformance with the requirements of the Contract Documents, industry standards, and manufacturers' recommendations. Work not conforming to these requirements shall be considered defective ("Defective Work"). Defective Work does not include damage caused by modifications not executed by Contractor, improper operation or maintenance, or normal wear and tear.

ONE-YEAR CORRECTION PERIOD. For a period of not less than one year from the date County accepts Contractor's work, as evidenced by a Notice of Completion issued by County, Contractor shall take immediate action to correct any Defective Work reported by County orally or in writing. Contractor shall initiate corrective action on Defective Work affecting use of a facility, safety, or preservation of property within twenty-four (24) hours after notification. Contractor shall initiate corrective action on other Defective Work within ten (10) calendar days after notification. If Contractor fails to initiate corrective action within the specified times or fails to complete the corrective work within a reasonable time, County may take whatever corrective action it deems necessary. All costs incurred by County because of Contractor's failure to correct Defective Work during the one-year correction period shall be due and payable immediately by Contractor. The one-year correction period relates only to the specific obligation of Contractor to return to the Project site and correct Defective Work. The one-year correction period does not establish a period of limitations with respect to any of Contractor's other obligations under the Contract Documents, including but not limited to Contractor's warranty, and it has no relationship to the time within which County may seek to enforce the Contractor's obligation to comply with the Contract Documents or to the time within which proceedings may be commenced to establish the Contractor's liability with respect to any of the Contractor's obligations.

MANUFACTURERS' AND INSTALLERS' WARRANTIES. All manufacturers' and installers' warranties received by Contractor shall be assignable to County, and upon

Before Owner's acceptance of the work, Contractor shall deliver to County manufacturers' and installers' warranties, guarantees, instruction sheets, and parts lists, which are furnished with certain articles of materials incorporated in the work.

SURVIVAL. All of Contractor's warranty obligations shall survive abandonment, termination, and completion of the Contract. Neither Final Payment nor any other provision in the Contract Documents shall constitute County's acceptance of work not performed in accordance with the Contract Documents nor relieve Contractor of liability with respect to its warranty obligations or for Defective Work.

58. Patent Infringement:

- A. The Contractor shall report to OC Public Works, promptly and in reasonable detail, each notice or claim of patent infringement based on the performance of this Contract of which the Contractor has knowledge.
- B. In the event of any suit against the County, or any claim against the County made before suit has been instituted, on account of any alleged patent infringement arising out of the performance of this Contract, or out of the use of any supplies furnished or work or services performed hereunder, the Contractor shall, at his own expense, furnish to the County, upon request, all evidence and information in possession of the Contractor pertaining to such suit or claim. The Contractor further agrees to indemnify, defend with counsel approved in writing by County and hold harmless the County against any and all claims or lawsuits based upon such patent infringement, to defend such suits, and to pay any judgment rendered against County, its employees, or the Board of Supervisors.

59. **Assignment:** Neither the Contract nor any portion thereof may be assigned by the Contractor without the expressed permission of the County. Claims for monies due or to become due the Contractor from the County under this Contract may be assigned, with the written consent of the County Purchasing Agent or designee, to a bank, trust company, or other financing institution and may thereafter be further assigned or reassigned to any such institution. To effect such assignments, the Contractor, or his assignee, shall submit a written request to the County Project Manager enclosing a letter from the proposed assignee indicating that it will accept such assignment. Any attempted assignment contrary to the provisions of this paragraph shall be void.

60. Termination for Cause & Damages For Delay:

- A. If the Contractor refuses or fails to prosecute the work with such diligence as will insure its completion within the time specified in this Contract or any extension thereof, or fails to complete said work within such time, the County Project Manager may, by written notice to the Contractor, terminate his right to proceed with the Project or such part of the Project as to which there has been delay. In such event, the County may take over the Project and prosecute the same to completion, by Contract or otherwise, and may take possession of and utilize in completing the Project such materials, appliances, and plant as may be on the site of the Project and necessary therefore. Whether or not the Contractor's right to proceed with the Project is terminated, he and his sureties shall be

liable for any damage to the County resulting from his refusal or failure to complete the Project within the specified time.

- B. If fixed and agreed liquidated damages are provided in the Contract and if the County takes over the Project or otherwise incurs damages as a result of Contractor's default, the resulting damage will consist of such liquidated damages until such reasonable time as may be required for final completion of the Project together with any increased costs occasioned the Project in completing the Project as well as any other damages incurred by County.
- C. The Contractor's right to proceed shall not be so terminated nor the Contractor charged with resulting damage if:
- i.  - ii. The Contractor, within ten days from the beginning of any such delays (unless OC Public Works grants a further period of time before the date of final payment under the Contract), notifies OC Public Works in writing of the causes of delay.
 - iii. OC Public Works shall ascertain the facts and the extent of the delay and extend the time for completing the Project when, in its judgment, the delay is justified. OC Public Works shall make written findings, and the findings of fact shall be final and conclusive on the parties, subject only to as the procedures provided in Article 43 of these Articles.
- D. The rights and remedies of the County provided in this Clause are in addition to any other rights and remedies provided by law or under this Contract.
61. **Termination for Convenience of the County:** Notwithstanding any other provision of the Contract, the County may, at any time, and without cause, terminate this Contract in whole or in part, upon not less than seven (7) days' written notice to the Contractor. Such termination shall be affected by delivery to the Contractor of a notice of termination specifying the effective date of the termination and the extent of the work to be terminated. The Contractor shall immediately stop work in accordance with the notice and comply with any other direction as may be specified in the notice or as provided subsequently by the County. The County shall pay the Contractor for the work completed prior to the effective date of the termination and such other payment Contractor is entitled to under Attachment A, section III. "Performance Requirements" and such payment shall be Contractor's sole remedy under this Contract. Under no circumstances will the Contractor be entitled to anticipatory or unearned profits, consequential damages, or other damages of any sort as a result of a termination or partial termination under this Paragraph. The Contractor shall insert in all subcontracts that the sub-consultant shall stop work on the date of and to the extent specified in a notice of termination, and shall require sub-consultant's to insert the same condition in any lower tier subcontracts.

Any consent by any Party to, or waiver of, a breach by the other, whether express or implied, shall not constitute consent to, waiver of, or excuse for any other different or subsequent breach.
63. **Remedies Not Exclusive:** The remedies for breach set forth in this Contract are cumulative as to one another and as to any other provided by law, rather than exclusive; and the expression of certain remedies in this Contract does not preclude resort by either Party to any other remedies provided by law.

In addition, all subcontractors performing work on behalf of Contractor pursuant to this contract shall obtain insurance subject to the same terms and conditions as set forth herein for Contractor.

- 2) Contractor's duty to defend, as stated above, shall be absolute and irrespective of any duty to indemnify or hold harmless; and
- 3) The provisions of California Civil Code Section 2860 shall apply to any and all actions to which the duty to defend stated above applies, and the Contractor's SIR provision shall be interpreted as though the Contractor was an insurer and the County was the insured.

Contract may be in breach without further notice to Contractor, and County shall be entitled to all legal remedies.

The procuring of such required policy or policies of insurance shall not be construed to limit Contractor's liability hereunder nor to fulfill the indemnification provisions and requirements of this Contract, nor in any way to reduce the policy coverage and limits available from the insurer.

60. **Bonds:** The Contractor shall furnish, at time of signing the Contract, one surety bond which shall protect the laborers and materialmen and shall be for \$1,000,000, in accordance with *Section 9554 of the Civil Code*, and one surety bond in the amount of \$1,000,000, guaranteeing the faithful performance of the Contract. If at any time the value of the total job orders is expected to exceed \$1,000,000, the Contractor shall furnish, in a manner acceptable to the County, evidence that the Contractor is bonded to the expected total value of outstanding job orders for both the faithful performance and laborers and materialmen bonds. Contractor shall not be entitled to, nor shall County authorize, job orders when the total outstanding value of the job orders under this contract exceeds the bond values for which the County is an obligee. Said bonds to be approved by the office of the County Counsel and the County Executive Office of Orange County. Such bonds shall be the forms provided in these specifications and issued and executed by an admitted surety insurer (authorized to transact surety insurance in California). (e.g., if the bonds are issued through a surplus line broker, both the surplus line broker and the insurer with whom he is doing business for purposes of this project must be licensed in California to issue such bonds.)

The faithful performance bond shall be issued by a Surety company with a minimum insurance rating of A- (Secure Best's Rating) and VIII (Financial Size Category) as determined by the most current edition of the Best's Key Rating Guide/Property-Casualty/United States or ambest.com. The Surety Company must also be authorized to write in California by the Department of the Treasury, and must be listed on the most current edition of the Department of Treasury's Listing of Approved Securities.

If any surety upon any bond furnished in connection with this Contract becomes unacceptable to the County, or if any such surety fails to furnish reports as to his financial condition from time to time as requested by OC Public Works, the Contractor shall promptly furnish such additional security as may be required by OC Public Works or the Board of Supervisors from time to time to protect the interests of the County and of persons supplying labor or materials in the prosecution of the work contemplated by this Contract.

If the County increases the total Contract amount the Contractor is to provide a new bond for the new total Contract amount or a bond for the difference.

61. **Charges, Fines, Penalties and Assessments:** Contractor shall be responsible for any and all charges, fines, penalties, and/or assessments levied against the County by any governmental entity, administrative or regulatory agency having jurisdiction, resulting from any action or omission of the Contractor, Contractor's subcontractor, suppliers, and/or employees, unless due to the sole and active negligence of the County. County is authorized to deduct any such charge, fine penalty, or assessment from any payment County is otherwise required to make to Contractor.

**County of Orange, OC Public Works
Sully-Miller Contracting Company**

**Attachment A
MA-080-21011281**

If any such charge, fine, penalty, or assessment is levied against the County subsequent to the completion of the Contract as a result of any action or omission as set forth above, Contractor shall nevertheless be responsible to the County for the entire sum of such charge, fine, penalty, or assessment and agrees to pay the full amount due within sixty (60) calendar days of receiving an invoice from the County.

Contractor shall be liable to the County for attorney's fees and costs incurred by the County in enforcing the provisions of this paragraph.

62. **Bills and Liens:** Contractor shall pay promptly all indebtedness for labor, materials and equipment used in performance of the work. Contractor shall not permit any lien or charge to attach to the work or the premises, but if any does so attach, Contractor shall promptly procure its release and, in accordance with the requirements of Article 22 above, indemnify, defend, and hold County harmless and be responsible for payment of all costs, damages, penalties and expenses related to or arising from or related thereto.
63. **Changes:** The County may, at any time, by written order, and without notice to the sureties, make changes in accordance with the terms and conditions of this Contract.
64. **Change of Ownership:** Contractor agrees that if there is a change or transfer in ownership of Contractor's business prior to completion of this Contract, the new owners shall be required under terms of sale or other transfer to assume Contractor's duties and obligations contained in this Contract and complete them to the satisfaction of County.
65. **Force Majeure:** Contractor shall not be assessed with liquidated damages or unsatisfactory performance penalties during any delay beyond the time named for the performance of this Contract caused by any act of God, war, civil disorder, employment strike or other cause beyond its reasonable control, provided Contractor gives written notice of the cause of the delay to County within 36 hours of the start of the delay and Contractor avails himself of any available remedies.
66. **Confidentiality:** Contractor agrees to maintain the confidentiality of all County and County and County-related records and information pursuant to all statutory laws relating to privacy and confidentiality that currently exist or exist at any time during the term of this Contract. All such records and information shall be considered confidential and kept confidential by Contractor and Contractor's staff, agents and employees.
67. **Compliance with Laws:** Contractor represents and warrants that services to be provided under this Contract shall fully comply, at Contractor's expense, with all standards, laws, statutes, restrictions, ordinances, requirements, and regulations (collectively "laws"), including, but not limited to those issued by County in its governmental capacity and all other laws applicable to the services at the time services are provided to and accepted by County. Contractor acknowledges that County is relying on Contractor to ensure such compliance, and pursuant to the requirements of Article 22 above, Contractor agrees that it shall defend, indemnify and hold County and County Indemnitees harmless from all liability, damages, costs and expenses arising from or related to a violation of such laws.
68. **Pricing:** The Contract price, as more fully set forth in Attachment B, shall include full compensation for providing all required goods in accordance with required specifications, or services as specified herein or when applicable, in the Scope of Work attached to this Contract, and no additional compensation will be allowed therefore, unless otherwise provided for in this Contract.

70. **Terms and Conditions:** Contractor acknowledges that it has read and agrees to all terms and conditions included in this Contract.
71. **Headings:** The various headings and numbers herein, the grouping of provisions of this Contract into separate clauses and paragraphs, and the organization hereof are for the purpose of convenience only and shall not limit or otherwise affect the meaning hereof.
72. **Severability:** If any term, covenant, condition or provision of this Contract is held by a court of competent jurisdiction to be invalid, void or unenforceable, the remainder of the provisions hereof shall remain in full force and effect and shall in no way be affected, impaired or invalidated thereby.
73. **Calendar Days:** Any reference to the word “day” or “days” herein shall mean calendar day or calendar days, respectively, unless otherwise expressly provided.
74. **Attorney’s Fees:** In any action or proceeding to enforce or interpret any provision of this Contract, or where any provision hereof is validly asserted as a defense, each Party shall bear its own attorney’s fees, costs and expenses.
75. **Authority:** The Parties to this Contract represent and warrant that this Contract has been duly authorized and executed and constitutes the legally binding obligation of their respective organization or entity, enforceable in accordance with its terms.
76. **Employee Eligibility Verification:** The Contractor warrants that it fully complies with all Federal and State statutes and regulations regarding the employment of aliens and others and that all its employees performing work under this Contract meet the citizenship or alien status requirement set forth in Federal statutes and regulations. The Contractor shall obtain, from all employees performing work hereunder, all verification and other documentation of employment eligibility status required by Federal or State statutes and regulations including, but not limited to, the Immigration Reform and Control Act of 1986, 8 U.S.C. §1324 et seq., as they currently exist and as they may be hereafter amended. The Contractor shall retain all such documentation for all covered employees for the period prescribed by the law. The Contractor shall indemnify, defend with counsel approved in writing by County, and hold harmless, the County, its agents, officers, and employees from employer sanctions and any other liability which may be assessed against the Contractor or the County or both in connection with any alleged violation of any Federal or State statutes or regulations pertaining to the eligibility for employment of any persons performing work under this Contract.
77. **Indemnification:** Contractor agrees to indemnify, defend with counsel approved in writing by County, and hold County, its elected and appointed officials, officers, employees, agents and those special districts and agencies which County’s Board of Supervisors acts as the governing Board (“County Indemnitees”) harmless from any claims, demands or liability of any kind or nature, including but not limited to personal injury or property damage, arising from or related to the services, products or other performance provided by Contractor pursuant to this Contract. If judgment is entered against Contractor and County by a court of competent jurisdiction because of the concurrent active negligence of County or County Indemnitees, Contractor and County agree that liability will be apportioned as determined by the court. 78. **Waiver of Claims:** Unless a shorter time is specified elsewhere in this Contract, on or before making his final request for payment, Contractor shall submit to County, in writing, all claims for compensation under or arising out of this Contract; the acceptance by Contractor of the final payment shall constitute a waiver of all claims against County under or arising out of this Contract except those previously made in writing and identified by Contractor as unsettled at the time of his final request for payment.
79. **Cultural/Scientific Resource Finds:** If the Contractor's operations uncover or Contractor's employees find any burial grounds or remains, ceremonial objects, petroglyphs, and archaeological or paleontological or other artifacts of like nature within the construction area, Contractor shall immediately notify the County of Contractor's findings and shall modify construction operations so as not to disturb the findings pending receipt of notification as to determination of the final disposition of such finding from the County.  - D. This Contract is an indefinite-quantity contract for the supplies or services or labor only specified and effective for the period stated. Work or performance shall be made only as authorized by Job Orders issued in accordance with the ordering procedures set forth in this Contract. Contractor acknowledges, consents and agrees that Contractor is not guaranteed to receive any minimum amount of work by virtue of being a party to this Contract.
3. **ORDERING PROCEDURES:**
 - A. Joint Scope Meeting and Job Order Development

County will issue, for each individual Job Order, a Brief Scope of Work and Joint Scope Meeting invitation requesting Contractor's Superintendent and/or County's representative, to meet at the jobsite or at a designated location. Upon receipt of this notification, Contractor agrees to respond to County within two (2) working days by establishing verbal contact with County. Contractor, County, and other necessary parties will visit the proposed work site and participate in a Joint Scope Meeting, which will include discussion and establishment of the following:

 - a. Detailed Scope of Work
 - b. Definition and refinement of requirements
 - c. Existing site conditions
 - d. Methods and alternatives for accomplishing work
 - e. Requirements for plans, sketches, traffic controls, permits (if applicable), shop drawing(s), submittals, etc.

C031712

County of Orange, OC Public Works
Sully-Miller Contracting Company

- f. Tentative duration work schedule
- g. Preliminary quantity assumptions/estimates
- h. Staging areas and site access
- i. Special conditions regarding unique facility operations
- j. Safety requirements
- k. Hazardous materials or site conditions
- l. Other requirements, including permitting from regulatory agencies for work
- m. Date on which the Job Order Proposal is due

As part of the required Joint Scope Meeting, Contractor and County will agree on a sequence of work; means of access to the premises and building; space for storage of materials and equipment; work and materials and use of approaches; permitting from regulatory and resource agencies, use of corridors, stairways, elevators, specific restrictions on work hours, and means of communications and the location of partitions, eating spaces, and restrooms for Contractor, for individual Job Orders. Contractor agrees to be responsible for taking these factors into account when developing its Job Order Proposal.

The Detailed Scope of Work, in addition to the Cost Proposal, will be completed by Contractor and submitted to County for approval prior to issuance of a Notice to Proceed.

The County may decide to revise the Scope of Work for a Project using Supplemental Job Order. In that event, Contractor will provide County with a revised Job Order Price Proposal for revisions described in the Supplemental Job Order.

B. Request for Proposal

Once the project development stage and Joint Scope Meeting have been completed, County will issue a Request for Quote (RFQ) to Contractor. The RFQ will include pertinent information such as plans, specifications, and quantity estimates. Contractor agrees to prepare and submit a Job Order Proposal in accordance with Submittal instructions below.

C. Proposal Development

Contractor Job Order Proposal shall be comprised of the following elements:

a. Job Order Price Proposal

Pre-Priced Work Requirements

Pre-Priced work requirements will identify the type and number of work tasks required from the JWA-IPB. The price per unit set forth in the JWA-IPB shall serve as the base price for the purpose of the operation of this article.

**County of Orange, OC Public Works
Sully-Miller Contracting Company**

**Attachment A
MA-080-21011281**

Contractor's Job Order Proposal shall include support documentation to indicate that adequate engineering and planning for the requirement has been done and that the work tasks proposed are reasonable for the Detailed Scope of Work. Documentation to be submitted shall include, but not be limited to, shop drawings, calculations, catalog cuts, and specifications.

The total extended price for Pre-Priced work requirements will be determined by multiplying the price per unit by the quantity required by the appropriate Adjustment Factor

Non-Pre-Priced Task Requirements

Units of work not included in the JWA-IPB, but within the general scope and intent of this Contract, may be negotiated into this Contract as needs arise. Such work requirements shall be incorporated into and made a part of this Contract for the Job Order to which they pertain and may be incorporated into the JWA-IPB if determined appropriate by County at the negotiated price. Non-Pre-Priced Tasks shall be separately identified and submitted in the Proposal. Whether a work requirement is Pre-Priced or Non-Pre-Priced is a final determination by County, binding and conclusive on Contractor.

Information submitted in support of Non-Pre-Priced Tasks agree to include, but not be limited to, the following: complete specifications and technical data, including work unit content, work unit costs data, schedule requirements, quality control and inspection requirements. Pricing data submitted in support of Non-Pre-Priced Tasks include a cost or price analysis report, establishing the basis for selecting the approach proposed to accomplish the requirements. Unless otherwise directed by County, cost data shall be submitted demonstrating that Contractor solicited and received three (3) bids. Contractor shall not submit a quote or bid from any supplier or subcontractor that the Contractor is not prepared to use. County may require additional quotes and bids if the suppliers or subcontractors are not acceptable or if the prices are not reasonable. Contractor agrees to provide an installed unit price (or demolition price if appropriate), which shall include all costs required to accomplish the Non-Pre-Priced Task.

The final price submitted for Non-Pre-Priced (NPP) Tasks shall be calculated according to the following formula:

Contractor performed duties

- A = The hourly rate for each trade classification not in the JWA-IPB multiplied by the quantity;
- B = The rate for each piece of equipment not in the JWA-IPB multiplied by the quantity;

**County of Orange, OC Public Works
Sully-Miller Contracting Company**

**Attachment A
MA-080-21011281**

C = Lowest of three independent quotes for all materials.

Total for Non-Pre-priced Tasks performed with Contractor's Own Forces
= (A+B+C) + Allowable Profit (10%)

Subcontractor performed duties

If the Non-Pre-priced Task is to be subcontracted, the Contractor must submit three independent quotes for the work.

D = Lowest of three Subcontractor Quotes

Total Cost for Non-Pre-priced Tasks performed by Subcontractors = D + Allowable Profit (5%) + Contractor's Overhead (5%)

After being used on three (3) separate Job Orders, the unit price for the Non-Pre-Priced Task may become fixed as a permanent Pre-Priced item, which will no longer require price justification.

The County's determination as to whether a task is a Pre-priced Task or a Non-Pre-Priced Task shall be final, binding, and conclusive as to the Contractor.

b. Total Fixed Job Order Price Proposal

The total fixed price of the Job Order shall be determined by adding the total price offered for Pre-Priced and Non-Pre-Priced work units.

c. Submittals

All documents, shop drawings and "As-Built" drawings shall be prepared such that the drawings meet all the requirements of Local, State, and Federal regulations, codes and directives. Contractor agrees to also provide as necessary, the forms, studies, and other documentation required by applicable codes and agencies.

Contractor agrees to ensure that all engineering solutions conform strictly to the guides and criteria outlined in contract specifications. In case of uncertainty of detail or procedure, Contractor agrees to request additional instruction from County. The request must be submitted so that the submittal of the Job Order Proposal is not delayed. Contractor is responsible for producing complete, competent, properly coordinated, and thoroughly checked documents.

At Contractor's expense, as part of their Adjustment Factors, the documentation noted above, shall be prepared and reviewed as necessary to ensure its compliance with all applicable laws and regulations.

d. Work Duration Schedules

With each quote, the Contractor agrees to furnish a work duration schedule showing the order in which the Contractor proposes to perform the work, the durations in which the Contractor is to perform the work, and the relative dates on which the Contractor contemplates starting and completing project tasks, including the acquisition of materials, fabrication, and equipment. The County may determine the level of detail and the number of tasks required to be included on the schedule. Unless otherwise specified, the schedule shall be in the form of a Gantt chart work duration schedule of suitable scale to indicate appropriately the percentage of work scheduled for completion. At the discretion of the County, the Contractor may be required to furnish a Critical Path Method (CPM) schedule.

The purpose of the Work Duration Schedule is to ensure adequate planning, coordination, and execution of the work, and to evaluate the progress of the work. The schedule indicates the dates for starting and completing various aspects of the work including, but not limited to, on-site construction activities as well as the submittal, approval, procurement, fabrication, and delivery of major items, materials and equipment. The schedule indicates phasing of work activities as required. The schedule provides the Contractor's initial plan for the work based on its understanding of the Detailed Scope of Work, with the critical path highlighted.

- a. Schedule Approval; all project schedules will be subject to the County's review and approval. The use of any scheduling software shall be subject to the approval of the County.
- b. Schedule Updates; the Contractor agrees to maintain the work duration schedule updates on an ongoing basis and, when the County requests it, include the updates in its payment request. The Contractor may be required to submit a narrative report with each monthly update, which shall include a description of current and anticipated problem areas, delaying factors and the impact, and an explanation of corrective action taken or proposed. Failure to do so may be considered a material breach of the Contract. Any additional or unanticipated costs or expenses required to maintain the schedules shall be solely the Contractor's obligation and Contractor agrees not to charge the County.
- c. Adjustment of Work Duration Schedule; the Contractor agrees that whenever it becomes apparent to the County, from the current monthly status review meeting or the schedule, that phasing or Job Order milestone dates will not be met, it will take some or all of the following actions at no additional cost to the County.

**County of Orange, OC Public Works
Sully-Miller Contracting Company**

**Attachment A
MA-080-21011281**

1. Increase construction manpower in such quantities and crafts as will eliminate the backlog of work.
2. Increase the number of working hours per shift, shifts per working day.
3. Reschedule the work under the Job Order in conformance with all other requirements. The Contractor agrees to be liable for any additional cost incurred by the County for the adjustment of project schedules.
4. Prior to proceeding with any of the above actions, the Contractor agrees to notify and obtain approval from the County's Project Manager for the proposed schedule changes. If such actions are approved, the Contractor agrees to incorporate the revisions into the schedule.

e. Subcontractor's List

The submission of a Job Order Proposal represents Contractor's offer to do work, and as such, in accordance with Sections 4100 to 4113, inclusive, of the Public Contract Code of the State of California, Contractor agrees to list, on the Subcontractor listing report, the name, license number and business location of each Subcontractor that will perform work, labor or render service on the work in excess of one-half of one percent (1/2%) of Contractor's Task Order Price or \$10,000, whichever is greater, or Contractor agrees that he is fully qualified to perform that portion of the work himself, and he shall perform that portion himself. Contractors and Subcontractors who have been debarred from public works projects by the Labor Commissioner may not perform work under this Contract. Contractor agrees to list project percentage of proposed Subcontractor and percentage of the project to be self-performed.

Contractor agrees to advise County of any Subcontractor substitution(s) prior to commencement of subcontract work and to only substitute Subcontractor as authorized under Public Contract Code Sections 4100 et seq. Contractor may be subject to penalties in accordance with the above-referenced sections for illegal Subcontractor substitution.

f. Electronic Job Order Price Proposal

Contractor agrees to transmit an electronic copy of the Job Order Price Proposal, using County furnished software, to County.

g. Complete Job Order Proposal

Contractor shall confirm receipt of the Request for Quote within twenty-four (24) hours and submit Detailed Scope of Work and Cost Proposal

**County of Orange, OC Public Works
Sully-Miller Contracting Company**

**Attachment A
MA-080-21011281**

within five (5) working days unless otherwise authorized in writing by County. All incomplete Job Order Proposals shall be rejected. On complex Job Orders, such as Job Orders requiring incidental engineering/architectural drawings and approvals and permits, allowance will be made to provide adequate time for preparation and submittal of the necessary documents.

In emergency situations and minor maintenance and repair Job Orders requiring immediate completion, the Job Order Proposal may be required quickly. The due date will be so indicated on the Request for Quote or, as described below, the Contractor may be directed to begin work immediately with the paperwork to follow.

By submitting a signed Proposal, Contractor agrees to accomplish the work outlined in the RFQ and the Detailed Scope of Work for that Job Order at the price submitted. It is Contractor's responsibility to include the necessary line items and quantities in the Price Proposal and apply the appropriate Adjustment Factor(s) prior to submitting it to County. Errors and omissions in the Price Proposal shall be the responsibility of Contractor. All costs associated with preparing proposals shall be the responsibility of Contractor. County makes no commitment as to the award of individual Job Orders.

D. Job Order Proposal Review

Each Price Proposal received from Contractor will be reviewed in detail for the appropriateness of quantities and tasks selected. Submittals will be reviewed, as well as the work duration schedule and list of Subcontractors. County will evaluate the proposed work units and may compare them with the independent County estimate of the same tasks to determine the reasonableness of approach, including the nature and number of work units proposed. County will determine whether Contractor's Price Proposal is acceptable.

The Contractor may choose the means and methods of construction; subject, however, to the County's right to reject any means and methods proposed by the Contractor that:

- a. Will constitute or create a hazard to the work, or to persons or property;
- b. Will not produce finished work in accordance with the terms of the Contract; or
- c. Unnecessarily increases the price of the Job Order when alternative means and methods are available.

E. Project Approval

County reserves the right to reject a Contractor's Job Order Proposal based on unjustifiable quantities and/or methods, performance periods, inadequate

**County of Orange, OC Public Works
Sully-Miller Contracting Company**

**Attachment A
MA-080-21011281**

documentation, or other inconsistencies or deficiencies on Contractor's part in the sole opinion of County.

County reserves the right to issue a unilateral Job Order Authorization for the work if a Price Proposal cannot be mutually agreed upon. This is based upon unjustifiable quantities and/or line item activities or tasks that are inadequate or inconsistent in the sole opinion of County.

County also reserves the right to not issue a Job Order if the requirement is no longer valid, the project is not funded or for any reason deemed to be in the best interest of the County. In these instances, Contractor has no right of claim to recover Proposal preparation expenses. County may pursue continuing valid requirements by other means where Contract was not reached with the Contractor.

In the event that immediate emergency response is necessary, the Contractor shall be required to follow alternative procedures as established by the County. The Contractor shall begin work as directed, notwithstanding the absence of a fully developed Request for Quote, Detailed Scope of Work, or Job Order. The Contractor shall be compensated for such work as if the work had been ordered under the standard procedures.

F. Job Order Proposal Time Requirements

a. Proposal Submittal

Contractor shall confirm receipt of the Request for Quote within twenty-four (24) hours and submit Detailed Scope of Work and Cost Proposal within five (5) working days unless otherwise authorized in writing by County.

Contractor agrees to make a thorough analysis of each Request for Quote and submit all requests for information to the County, in writing. All requests for information and the responses are to be documented in the Detailed Scope of Work. The requests shall include supporting sketches or information necessary to properly convey requested information. Contractor shall submit recommended solution(s) review and consideration the requests for information shall not extend the Proposal due date unless mutually agreed to by County.

b. Proposal Review

Contractor's project manager or agent agrees to be available for Proposal review meetings within one (1) day of being notified by County (via fax, e-mail, telephone, etc.). After review of the Proposal, Contractor agrees to remove all inapplicable line items and adjust quantities as directed by County.

**County of Orange, OC Public Works
Sully-Miller Contracting Company**

**Attachment A
MA-080-21011281**

c. Job Order Price Proposal Modification

Contractor will be granted only one opportunity to add new, valid line items that may have been omitted from its first Price Proposal by submitting a second, revised Price Proposal. Contractor agrees to submit the revised Price Proposal within twenty-four (24) hours unless authorized in writing by County. Upon review of the revised Price Proposal, Contractor agrees to remove all line items or adjust quantities deemed inappropriate by County and re-submit its Price Proposal within one (1) day. No new line items may be added to the revised Price Proposal, nor may quantities be increased, nor modifiers added unless specifically agreed to in writing by County's subsequent Price Proposal review.

d. Enforcement of Time Requirements

The Job Order Proposal time requirements contained herein will be strictly enforced. Failure to comply may result in Contractor being deemed non-responsive to the Request for Quote. County may cancel the Request for Quote from Contractor and solicit another contractor. County may also deem Contractor ineligible for any future JOC contracts.

4. **APPROVAL AND CONSTRUCTION PROCEDURES**

A. Issuance of the Task Order

Upon approval of the Detailed Scope of Work and Contractor's Job Order Proposal, County will issue a Job Order to Contractor. The Job Order will include the firm-fixed-price of the Job Order Price Proposal and the project duration. Once the Job Order has been issued, the Contractor agrees to:

- a. Initiate submission of required shop drawings and submittals to the County for review and approval;
- b. Prepare a detailed work duration schedule;
- c. The Contractor agrees to begin construction in accordance with the construction start date identified in the Notice to Proceed (NTP);
- d. The County shall have the right to direct the Contractor to withhold actual commencement of a Job Order in part or in whole, and the Contractor agrees to comply with such instructions. The Contractor agrees to be granted extension of the completion times of the Job Order equal to the number of working days delay caused to County pursuant to Contractor's compliance with such instructions. The Contractor will not be entitled to any additional compensation due to the subject extension of the completion time. The only compensation would be if a Job Order is delayed in part after work has commenced, and the Contractor is required to make the work area safe and maybe required to perform additional

scope as directed by the Engineer. The additional work will be considered as a separate Job Order.

B. Notice to Proceed

Notice to Proceed (NTP) will provide the construction start date, the duration of work, and the Completion date. Contractor agrees to begin and complete construction within the dates specified on the NTP. County must approve all extensions of time in writing.

The County may also issue an Emergency Notice to Proceed (NTP). In the event the County requires the Contractor to respond to an immediate request for work, a Job Order will be created, and an Emergency NTP will be issued.
