RECOMMENDED ACTION(S):

Authorize the Director of OC Public Works or designee to execute contracts for On-Call Power Generation and Distribution Engineering Services with R.G. Vanderweil Engineers LLP and Burns & McDonnell Engineering Company, Inc. for a three-year term commencing upon Board of Supervisors' approval or execution of all necessary signatures, whichever occurs later, in an amount not to exceed \$4,500,000 each, for a total amount not to exceed \$9,000,000, with the option to renew for two additional years upon Board of Supervisors' approval.

SUMMARY:

Approval of contracts for On-Call Power Generation and Distribution Engineering Services will provide timely access to specialized services needed in support of completing cost effective public works projects and will support expediting the completion of ongoing and future business needs for Countywide horizontal and vertical capital projects, including John Wayne Airport.

BACKGROUND INFORMATION:

On-Call Power Generation and Distribution Engineering Services (Services) are used to assist the County of Orange (County) in completing capital improvement, rehabilitation and maintenance projects. Many of the projects are time sensitive due to facilities reaching their useful life expectancy and needing repair and/or rehabilitation, while other projects are driven by safety, government code or regulatory permitting requirements. To continue efficient operation and management of County facilities, it is necessary to retain Services to supplement staff and provide specialized expertise. The award of contracts for Services expedites the process to obtain and utilize those needed Services.

On February 10, 2023, OC Public Works issued a Request for Qualifications (RFQ) to establish a Qualified Vendor List for Services. The RFQ was advertised through March 10, 2023, on the County online bidding system. Three submittals were received in response to the RFQ.

On March 29, 2023, the RFQ evaluation panel composed of five evaluators from OC Public Works completed the written evaluations and provided its recommendation. A summary of the most qualified contractors providing the Services is attached as part of the Memorandum of Recommendation and Summary of Evaluators’ Scoring (Attachment D).

OC Public Works is procuring these Services in accordance with the 2020 Design and Construction Procurement Policy Manual (DCPM), Section 3. The Orange County Preference Policy is not applicable to award of contracts procured in accordance with the DCPM.

The proposed contracts for Services are needed to support the John Wayne Airport (JWA) and OC Public Works 7-Year Capital Improvement Programs.

OC Public Works is recommending Board of Supervisors (Board) approval of Contract MA-080-23011464 and Contract MA-080-23011465 (Contracts) for Services with R.G. Vanderweil Engineers LLP and Burns & McDonnell Engineering Company, Inc. (Contractors), respectively, for a three-year term commencing upon Board approval or execution of all necessary signatures, whichever occurs later, in an amount not to exceed \$4.5 million each, for a total amount not to exceed \$9 million, with the option to renew for two additional years with Board approval.

An analysis was conducted to determine the cost/benefit of contracting out versus providing Services in-house. Based on this analysis, OC Public Works has determined that contracting for these Services is more efficient as it allows the County to ramp up the specialized Services when needed and is more cost effective as the specialized experience and expertise required to complete the work described in the Contract is currently unavailable in-house.

The Contractors' respective license numbers were verified as current and active through the Department of Consumer Affairs database on April 27, 2023. Copies of the verifications are on file. R.G. Vanderweil Engineers LLP is based in Arizona and Burns & McDonnell Engineering Company, Inc. is based in Missouri.

OC Public Works has conducted due diligence on the Contractors. Reference checks were satisfactory and completed with the following entities regarding similar Services.

Burns & McDonnell Engineering	Princeton University	Thermal Energy	Clemson University

The Contracts include subcontractors. See Attachment C for information regarding subcontractors and the Contract Summary Forms.

Compliance with CEQA: This action is not a project within the meaning of the CEQA Guidelines Section 15378 and is therefore not subject to CEQA since it does not have the potential for resulting in either a direct or physical change in the environment or a reasonably foreseeable indirect physical change in the environment. The approval of this agenda item does not commit the County to a definite course of action in regard to a project since it involves award of Contracts for Services to support expediting the completion of ongoing and future business needs for Countywide horizontal and vertical capital projects. This proposed activity is therefore not subject to CEQA. Any future action connected to this approval that constitutes a project will be reviewed for compliance with CEQA.

FINANCIAL IMPACT:

Appropriations for the Contracts are included in Budget Control 080, OC Public Works, JWA Operating Fund 280 and JWA Construction Fund 281, FY 2023-24 Budget and will be included in the budgeting process for future years. Due to the on-call nature of the Contracts, the percent breakdown per budget control/fund is unknown.

As part of consolidating the administration of various internal Services contracts under OC Public Works, the not to exceed amount has been established to allow for Countywide utilization. Each department will still utilize its internal process to encumber the amount needed based on their respective projects and ensure sufficient appropriations are available in the current budget and for future years.

The proposed Contracts include a provision stating the County may terminate the Contracts upon 10 days written notice for cause or at any time, and without cause, upon not less than seven days written notice without penalty to the County.

Said staff member's duties will consist of the giving of advice and consultations, assisting A-E in negotiations with other public agencies and private parties, miscellaneous items which in the judgment of A-E or County's staff warrant attention, and all other duties as may be described in Attachment A.

exercise a measure of control over A-E shall mean that A-E shall follow the desires of County, only in the results of the work.

2.2 Non-Discrimination

2.2.1 In the performance of this Contract, A-E agrees that it will comply with the requirements of the California Labor Code and not engage nor permit any subcontractors to engage in discrimination in employment of persons because of the race, religious creed, color, national origin, ancestry, physical disability, mental disability, medical condition, marital status, or sex of such persons.

This obligation shall apply to the A-E; the A-E's employees, agents, and relatives; sub-tier contractors; and third parties associated with accomplishing work and Projects/Services hereunder.

2.4.2 A-E's efforts shall include, but not be limited to establishing precautions to prevent its employees or agents from: making, receiving, providing or offering gifts, entertainment, payments, loans or other considerations which could be deemed to appear to influence individuals to act contrary to the best interests of the County.

2.5 Labor Code Notice

2.6.1 All A-E and subcontractors must comply with the requirements of California Labor Code 1770 et seq. if the work performed is considered a "public works" under California Labor Code 1720 et seq. 1.1.1 A-E shall indemnify, defend with counsel approved in writing by County, and hold harmless, the County, and their respective agents, officers, and employees from employer sanctions and any other liability which may be assessed against A-E or the County or both in connection with any alleged violation of any Federal or State statutes or regulations pertaining to the eligibility for employment of any persons performing work under this Contract.

Notwithstanding anything stated above, nothing contained herein shall relieve A-E of any insurance requirements or obligations created elsewhere in this Contract.

1.2 Bills and Liens

1.2.1 A-E shall pay promptly all indebtedness for labor, materials and equipment used in performance of the work. A-E shall not permit any lien or charge to attach to the work or the premises, but if any does so attach, A-E shall promptly procure its release and, in accordance with the requirements of the indemnification paragraph above, indemnify, defend, and hold County harmless and be responsible for payment of all costs, damages, penalties and expenses arising from or related thereto.

5.1.3 In the event the alleged breach is not cured by A-E prior to termination, all work performed by A-E pursuant to this Contract, which work has been reduced to plans or other documents, shall be made available to County.

5.2 Termination for Convenience

5.2.1 Notwithstanding any other provision of the Contract, County may at any time, and without cause, terminate this Contract in whole or in part, upon not less than seven (7) calendar days' written notice to the A-E. Such termination shall be effected by delivery to the A-E of a notice of termination specifying the effective date of the termination and the extent of the Work to be terminated.

5.2.2 A-E shall immediately stop work in accordance with the notice and comply with any other direction as may be specified in the notice or as provided subsequently by County.

5.2.3 County shall pay the A-E for the Work completed prior to the effective date of the termination, and such payment shall be the A-E's sole remedy under this Contract.

5.2.4 Under no circumstances will A-E be entitled to anticipatory or unearned profits, consequential damages, or other damages of any sort as a result of a termination or partial termination under this Paragraph.

5.2.5 A-E shall insert in all subcontracts that the subcontractor shall stop work on the date of and to the extent specified in a notice of termination and shall require subcontractors to insert the same condition in any lower tier subcontracts.

5.3 Breach of Contract

The failure of the A-E to comply with any of the provisions, covenants or conditions of this Contract shall be a material breach of this Contract. In such event, in addition to any other remedies available at law, in equity, or otherwise specified in this Contract, the County may:

- a. afford the A-E written notice of the breach and ten (10) calendar days or such shorter time that may be specified in this Contract within which to cure the breach;
- b. discontinue payment to the A-E for and during the period in which the A-E is in breach; and
- c. offset those monies disallowed pursuant to the above, against any monies billed by the A-E but yet unpaid by the County.

5.4 Default

- 5.4.1** In the event any equipment or service furnished by the A-E in the performance of this Contract should fail to conform to the specifications therein within one (1) calendar year from the County's acceptance of the equipment or service, or any performance period specifically specified within the specifications or Contract, whichever is greater, the County may reject same, and it shall become the duty of the A-E to reclaim and remove the items without expense to the County and to immediately replace all such rejected equipment or service with others conforming to such specifications, provided that should the A-E fail, neglect or refuse to do so within one hundred and twenty (120) calendar days, the County shall have the right to purchase on the open market a corresponding quantity of any such equipment or service and to deduct from any monies due or that may thereafter become due to the A-E the difference between the price specified in this Contract and the actual cost to the County.
- 5.4.2** In the event the A-E shall fail to make prompt delivery as specified of any equipment or service, the same conditions as to the rights of the County to purchase on the open market and to reimbursement set forth above shall apply, except as otherwise provided in this Contract.

ATTACHMENT A: SCOPE OF WORK**I. INTRODUCTION**

OC Public Works on behalf of the County of Orange (County), requires professional services to meet workload demands and project scheduling commitments in relation to Architect-Engineer (A-E) Design, Project Administration and Management Services specializing in mechanical, electrical, utility, energy planning, engineering services, and power engineering for various power generation and distribution related projects. A-E is defined as an Architect or Engineer for design and/or engineering of a project. To supplement existing resources, County intends to issue "On-Call Power Generation and Distribution Engineering Services" for use by the County, on an "as needed" basis. No specified amount of work is guaranteed to A-E. However, the amount of negotiated contracted work that will be required on an "as-needed" basis shall not exceed (\$4,500,000).

The on-call A-E must be able to respond to a variety of emergency conditions occurring within County owned cogeneration plants and/or power distribution systems that could service essential facilities. A-E working under the on-call agreement shall be available on short notice (less than two hours) to respond to emergency conditions.

II. GENERAL DESCRIPTION OF SERVICES

The A-E will be contacted by Orange County Public Works Project Management staff on an "as-needed" basis as projects arise to provide A-E for professional services. Requirements will be discussed by both Parties and A-E shall prepare a written *Scope Statement* that will include the specific work to be performed, including the costs and time required to complete the project/task. Orange County Public Works Project Management staff will then review the A-E's *Scope Statement*, proceed with negotiation of task costs and when satisfied, issue a Contract Task Order (CTO) against this Contract.

The A-E shall serve as lead of a design team that may include other construction and system design professionals working together to ensure that the original design is carried through to the finished product, with no alterations in materials or design that would lead to safety issues or compromise the quality of the facility or other facility component. Other team members who may be retained by the lead to support a project as a consultant may include but are not limited to controls engineers, architects, mechanical engineers, structural engineers, electrical engineers, civil engineers, utility plant engineers, commissioning consultants, data consultants, security consultants, environmental engineering consultants, estimators, 3-D scanning professionals etc., all of whom have a depth of knowledge and practice regarding value engineering.

The A-E shall be responsible for the preparation of comprehensive system and/or building assessments, designs, drawings, specifications, cost estimates, and reports within the scope of the Contract Task Order (CTO). In the preparation of schematic designs, design development, construction drawings and documents, specifications including major equipment specifications the A-E shall also be responsible for:

- A. Obtaining data by reviewing record drawings, evaluating previously generated reports, visiting the site and by conferences with the User/Client and facility maintenance staff or by other actions as necessary to develop the design;
- B. Checking of shop drawings, submittals, materials and other data submitted by the Construction Contractor for approval;
- C. Furnishing consultation and advice to County to clarify the intent of the drawings and specifications and on questions that may arise during the construction of the project;
- D. Space planning, programming and code compliance review and upgrades;
- E. The meeting of submittal dates included in the *Scope Statement* of the Contract Task Order, including the work of consultants;

- F. Coordination with various agencies having authority of jurisdiction for planning services, entitlement, fire life safety, CEQA, ADA, etc.
- G. Construction administration services, testing and commissioning.
- H. Close out services, as-built plans, material lists, project acceptance, etc.
- I. The coordination of the various elements of the design to assure compatibility of architectural, structural, electrical, mechanical/plumbing, and other design features.
- J. Other services as specifically included in the Contract Task Order related to project Initiation, Planning/Design, Bid/Award, Construction and Closeout.

The A-E shall restrict themselves to the *Scope Statement* of the Contract Task Order. Any changes in the *Scope Statement* shall require prior written authorization by County.

III. CONTRACT TASK ORDER

A-E shall be assigned work via a task order by Orange County Public Works which shall subsequently be referred to as the "Contract Task Order" (hereinafter "CTO"). A CTO for each project shall be developed by A-E in conjunction with Orange County Public Works Project Management staff. The County Project Manager shall manage all A-E's work including monitoring the CTO work schedule, quality of deliverables, review of invoiced amounts, adherence to set budget, and internal review of submittal packages. A-E shall follow all requirements as outlined in the CTO; this general Scope of Work, the project specific *Scope Statement*, and the Architect-Engineer Guide (Latest Edition).

The CTO shall include a detailed *Scope Statement*, describing tasks to be performed with a specific list of deliverables for each task, schedule of work and cost to complete the work. The schedule of work shall allow enough time for meetings with Orange County Public Works Project Management staff to review the work progress, provide technical and policy direction, resolve problems, and ensure adherence to the work completion schedule. The CTO shall include a cover sheet provided by Orange County Public Works Project Management staff with the appropriate signature blocks and contract information. Once both Parties agree, and all Parties have signed the CTO, Orange County Public Works Project Management staff shall provide A-E with a Notice to Proceed (NTP) to begin work. A-E shall submit all plans, reports and other documents produced under the CTO to the assigned County Project Manager within the timeframe indicated in the CTO or as directed by Orange County Public Works Project Management staff.

4. All insurance policies required by this Contract shall waive all rights of subrogation against the **County of Orange, its elected and appointed officials, officers, employees and agents** when acting within the scope of their appointment or employment.
5. A-E shall provide thirty (30) days prior written notice to the County of any policy cancellation or non-renewal and ten (10) days prior written notice where cancellation is due to non-payment of premium and provide a copy of the cancellation notice to County. Failure to provide written notice of cancellation may constitute a material breach of the Contract, upon which the County may suspend or terminate this Contract.
6. If the A-E's Professional and/or Pollution Liability policy(ies) is/are a claims-made policy, A-E shall agree to the following:

The retroactive date must be shown and must be before the date of the Contract or the beginning of the Contract services.

Insurance must be maintained, and evidence of insurance must be provided for at least three (3) years after expiration or earlier termination of Contract services.

If coverage is canceled or non-renewed, and not replaced with another claims-made policy form with a retroactive date prior to the effective date of the Contract services, A-E must purchase an extended reporting period for a minimum of three (3) years after expiration of earlier termination of the Contract.
7. The Commercial General Liability policy shall contain a severability of interest's clause (standard in the ISO CG 001 policy).
8. Insurance certificates should be forwarded to the agency/department address listed on the solicitation.
9. If the A-E fails to provide the insurance certificates and endorsements within seven (7) days of notification by CEO/Purchasing or the agency/department purchasing division, award may be made to the next qualified vendor.
10. County expressly retains the right to require A-E to increase or decrease insurance of any of the above insurance types throughout the term of this Contract. Any increase or decrease in insurance will be as deemed by County of Orange Risk Manager as appropriate to adequately protect County.
11. County shall notify A-E in writing of changes in the insurance requirements. If A-E does not deposit copies of acceptable Certificates of Insurance and endorsements with County incorporating such changes within thirty (30) days of receipt of such notice, this Contract may be in breach without further notice to A-E, and County shall be entitled to all legal remedies.
12. The procuring of such required policy or policies of insurance shall not be construed to limit A-E's liability hereunder nor to fulfill the indemnification provisions and requirements of this Contract, nor act in any way to reduce the policy coverage and limits available from the insurer.

4. **INDEMNITY/COMPLIANCE**

1.1 **Indemnification**

1.1.1 **A-E shall indemnify, defend with counsel approved in writing by County, and hold harmless, the County, and their respective agents, officers, and employees from employer sanctions and any other liability which may be assessed against A-E or the County or both in connection with any alleged violation of any Federal or State statutes or regulations pertaining to the eligibility for employment of any persons performing work under this Contract.**

1.1.2 All Projects/Services submitted by A-E shall be complete and shall be carefully checked prior to submission. A-E understands that County's checking is discretionary, and A-E shall not assume that County will discover errors and/or omissions. If County discovers any errors or omissions prior to approving A-E's Projects/Services, the Projects/Services will be returned to A-E for correction. Should County or others discover errors or omissions in the work submitted by A-E after County's approval thereof, County's approval of A-E's Projects/Services shall not be used as a defense by A-E.

1.1.3 **A-E agrees to, indemnify, defend with counsel approved in writing by County, and hold County, and their elected and appointed officials, officers, employees, agents and those special districts and agencies which County's Board of Supervisors acts as the governing Board ("County Indemnitees") harmless from any claims, demands or liability of any kind or nature, including but not limited to personal injury or property damage, arising out of, pertaining to, or relating to the negligence, recklessness, or willful misconduct of the A-E. If judgment is entered against A-E and County by a court of competent jurisdiction because of the concurrent active negligence of A-E and County or County Indemnitees, A-E and County agree that liability will be apportioned as determined by the court. Neither Party shall request a jury apportionment. Notwithstanding anything stated above, nothing contained herein shall relieve A-E of any insurance requirements or obligations created elsewhere in this Contract.**

1.2 **Bills and Liens**

1.2.1 A-E shall pay promptly all indebtedness for labor, materials and equipment used in performance of the work. A-E shall not permit any lien or charge to attach to the work or the premises, **but if any does so attach, A-E shall promptly procure its release and, in accordance with the requirements of the indemnification paragraph above, indemnify, defend, and hold County harmless and be responsible for payment of all costs, damages, penalties and expenses arising from or related thereto.**

1.3 **Compliance with Laws**

1.3.1 A-E represents and agrees that services to be provided under this Contract shall fully comply, at A-E's expense, with all standards, laws, statutes, restrictions, ordinances, requirements, and regulations (collectively "laws"), including, but not limited to those issued by County in its governmental capacity and all other laws applicable to the Projects/Services at the time Projects/Services are provided to and accepted by County.

1.3.2 A-E acknowledges that County is relying on A-E for such compliance, and pursuant to the requirements of the indemnification paragraph above, **A-E agrees that it shall defend, indemnify and hold County and County Indemnitees harmless from all liability, damages, costs and expenses arising from or related to a violation of such laws.**

5. **TERMINATION**

5.1 Termination of Contract for Cause

- 5.1.1** If A-E breaches any of the covenants or conditions of this Contract, County shall have the right to terminate this Contract upon ten (10) days written notice prior to the effective day of termination.
- 5.1.2** A-E shall have the opportunity to cure the alleged breach prior to termination.
- 5.1.3** In the event the alleged breach is not cured by A-E prior to termination, all work performed by A-E pursuant to this Contract, which work has been reduced to plans or other documents, shall be made available to County.

5.2 Termination for Convenience

- 5.2.1** Notwithstanding any other provision of the Contract, County may at any time, and without cause, terminate this Contract in whole or in part, upon not less than seven (7) calendar days' written notice to the A-E. Such termination shall be effected by delivery to the A-E of a notice of termination specifying the effective date of the termination and the extent of the Work to be terminated.
- 5.2.2** A-E shall immediately stop work in accordance with the notice and comply with any other direction as may be specified in the notice or as provided subsequently by County.
- 5.2.3** County shall pay the A-E for the Work completed prior to the effective date of the termination, and such payment shall be the A-E's sole remedy under this Contract.
- 5.2.4** Under no circumstances will A-E be entitled to anticipatory or unearned profits, consequential damages, or other damages of any sort as a result of a termination or partial termination under this Paragraph.
- 5.2.5** A-E shall insert in all subcontracts that the subcontractor shall stop work on the date of and to the extent specified in a notice of termination and shall require subcontractors to insert the same condition in any lower tier subcontracts.

5.3 Breach of Contract

The failure of the A-E to comply with any of the provisions, covenants or conditions of this Contract shall be a material breach of this Contract. In such event, in addition to any other remedies available at law, in equity, or otherwise specified in this Contract, the County may:

- a. afford the A-E written notice of the breach and ten (10) calendar days or such shorter time that may be specified in this Contract within which to cure the breach.
- b. discontinue payment to the A-E for and during the period in which the A-E is in breach; and
- c. offset those monies disallowed pursuant to the above, against any monies billed by the A-E but yet unpaid by the County.

5.4 Default

- 5.4.1** In the event any equipment or service furnished by the A-E in the performance of this Contract should fail to conform to the specifications therein within one (1) calendar year from the County's acceptance of the equipment or service, or any performance period specifically specified within the specifications or Contract, whichever is greater, the County may reject same, and it shall become the duty of the A-E to reclaim and remove the items without expense to the County and to immediately replace all such rejected equipment or service with others conforming to such specifications, provided that should the A-E fail, neglect or refuse to do so within one hundred

and twenty (120) calendar days, the County shall have the right to purchase on the open market a corresponding quantity of any such equipment or service and to deduct from any monies due or that may thereafter become due to the A-E the difference between the price specified in this Contract and the actual cost to the County.

- 5.4.2 In the event the A-E shall fail to make prompt delivery as specified of any equipment or service, the same conditions as to the rights of the County to purchase on the open market and to reimbursement set forth above shall apply, except as otherwise provided in this Contract.
- 5.4.3 In the event of the cancellation of this Contract, either in whole or in part, by reason of the default or breach by the A-E, any loss or damage sustained by the County in procuring any equipment or service which the A-E agreed to supply under this Contract shall be borne and paid for by the A-E.
- 5.4.4 Default shall include failure to carry out any of the requirements of this Contract, including, but not limited to not providing enough properly skilled workers or proper materials, persistently disregarding laws and or ordinances, not proceeding with the Projects/Services as agreed to herein, or otherwise substantially violating any provision of this Contract.
- 5.4.5 **Orderly Termination:** Upon termination of this Contract for any reason, each Party shall assist the other Party in transferring all assets, tangible and intangible, as may be necessary for the orderly, non-disruptive business continuation of each Party, including all data and any unfinished, preliminary or draft documents. Each Party shall promptly return to the other Party all papers, materials, and other properties of the other held by each for purposes of performance of this Contract.
- 5.4.6 The right of either Party to terminate this Contract hereunder shall not be affected in any way by its waiver of or failure to take action with respect to any previous default.

Contractor acknowledges that, without limitation as to other remedies of enforcement available to County, upon the request of the Division of Apprenticeship Standards or the Division of Labor Standards Enforcement of the California Department of Industrial Relations, such penalties shall be withheld from progress payments then due Contractor. Contractor is not subject to a penalty assessment pursuant to this section due to the failure of a subcontractor to comply with this section.
- 6.34.7** Contractor and any Subcontractor(s) shall comply with the provisions of Labor Code Sections 1771 et seq. and shall pay workers employed on the Contract not less than the general prevailing rates of per diem wages and holiday and overtime wages as determined by the Director of Industrial Relations. ATTACHMENT A: SCOPE OF WORK

I. INTRODUCTION

OC Public Works on behalf of the County of Orange (County), requires professional services to meet workload demands and project scheduling commitments in relation to Architect-Engineer (A-E) Design, Project Administration and Management Services specializing in mechanical, electrical, utility, energy planning, engineering services, and power engineering for various power generation and distribution related projects. A-E is defined as an Architect or Engineer for design and/or engineering of a project. To supplement existing resources, County intends to issue "On-Call Power Generation and Distribution Engineering Services" for use by the County, on an "as needed" basis. No specified amount of work is guaranteed to A-E. However, the amount of negotiated contracted work that will be required on an "as-needed" basis shall not exceed (\$4,500,000).

The on-call A-E must be able to respond to a variety of emergency conditions occurring within County owned cogeneration plants and/or power distribution systems that could service essential facilities. A-E working under the on-call agreement shall be available on short notice (less than two hours) to respond to emergency conditions.

II. GENERAL DESCRIPTION OF SERVICES

The A-E will be contacted by Orange County Public Works Project Management staff on an "as-needed" basis as projects arise to provide A-E for professional services. Requirements will be discussed by both Parties and A-E shall prepare a written *Scope Statement* that will include the specific work to be performed, including the costs and time required to complete the project/task. Orange County Public Works Project Management staff will then review the A-E's *Scope Statement*, proceed with negotiation of task costs and when satisfied, issue a Contract Task Order (CTO) against this Contract.

The A-E shall serve as lead of a design team that may include other construction and system design professionals working together to ensure that the original design is carried through to the finished product, with no alterations in materials or design that would lead to safety issues or compromise the quality of the facility or other facility component. Other team members who may be retained by the lead to support a project as a consultant may include but are not limited to controls engineers, architects, mechanical engineers, structural engineers, electrical engineers, civil engineers, utility plant engineers, commissioning consultants, data consultants, security consultants, environmental engineering consultants, estimators, 3-D scanning professionals etc., all of whom have a depth of knowledge and practice regarding value engineering.

The A-E shall be responsible for the preparation of comprehensive system and/or building assessments, designs, drawings, specifications, cost estimates, and reports within the scope of the Contract Task Order (CTO). In the preparation of schematic designs, design development, construction drawings and documents, specifications including major equipment specifications the A-E shall also be responsible for:

- A. Obtaining data by reviewing record drawings, evaluating previously generated reports, visiting the site and by conferences with the User/Client and facility maintenance staff or by other actions as necessary to develop the design.
- B. Checking of shop drawings, submittals, materials, and other data submitted by the Construction Contractor for approval.
- C. Furnishing consultation and advice to County to clarify the intent of the drawings and specifications and on questions that may arise during the construction of the project.
- D. Space planning, programming and code compliance review and upgrades.
- E. The meeting of submittal dates included in the *Scope Statement* of the Contract Task Order, including the work of consultants.

- J. Other services as specifically included in the Contract Task Order related to project Initiation, Planning/Design, Bid/Award, Construction and Closeout.

The A-E shall restrict themselves to the *Scope Statement* of the Contract Task Order. Any changes in the *Scope Statement* shall require prior written authorization by County.

III. CONTRACT TASK ORDER

A-E shall be assigned work via a task order by Orange County Public Works which shall subsequently be referred to as the “Contract Task Order” (hereinafter “CTO”). A CTO for each project shall be developed by A-E in conjunction with Orange County Public Works Project Management staff. The County Project Manager shall manage all A-E’s work including monitoring the CTO work schedule, quality of deliverables, review of invoiced amounts, adherence to set budget, and internal review of submittal packages. A-E shall follow all requirements as outlined in the CTO; this general Scope of Work, the project specific *Scope Statement*, and the Architect-Engineer Guide (Latest Edition).

The CTO shall include a detailed *Scope Statement*, describing tasks to be performed with a specific list of deliverables for each task, schedule of work and cost to complete the work. The schedule of work shall allow enough time for meetings with Orange County Public Works Project Management staff to review the work progress, provide technical and policy direction, resolve problems, and ensure adherence to the work completion schedule. The CTO shall include a cover sheet provided by Orange County Public Works Project Management staff with the appropriate signature blocks and contract information. Once both Parties agree, and all Parties have signed the CTO, Orange County Public Works Project Management staff shall provide A-E with a Notice to Proceed (NTP) to begin work.
